

## ScameAssist

ScameAssist is a wearable compact device, equipped with a micro high-resolution display, headphones, microphone, and a camera. Logged into the Wi-Fi network it is capable of connecting the SCAME Forni Industriali Spa technician to the customer's operator. The customer's technician will therefore be guided in specific operations to be carried out to restore malfunctions or for the correct set-up of the machinery.

### ScameAssist CHARACTERISTICS

- 16 MP camera, 4 microphones with noise cancellation
- display LCD WVGA with field of view of 20°
- IP66, shock resistant, MIL-STD-810G
- 9hr battery

**SCAME Forni Industriali Spa**
